

## New Pipe Cap Range – For Mining, Oil and Gas Market

- Effective and economical means of preventing moisture debris, dirt and vermin from entering your expensive pipes during shipping or storage.
- Manufactured from specially formulated flexible Vinyl.
- Pipe Caps are made tough for harsh environments.
- The internal design incorporates moulded-in-lugs around the circumference of the closed end as well as locking rings on the internal walls to provide venting in non-threaded applications and additional locks for threaded applications.
