Silicone Tubing and Sleeve is ideal for covering long bolts, tubes, or pins where conventional silicone caps are too short. Silicone material resists temperatures up to 316 °C and is perfect for most powder coating and e-coating applications.

Features

- * Resistant to temperatures up to 316°C.
- * Can be cut to your desired length.
- * Inexpensive alternative to investing in moulds to make a traditional cap.
- * No risk of contamination to paint line.
- * Stock colour is clear.

Part Number	I.D. mm	Wall Thick.	Length Metres
12-SLT01030	1.02	1.6	30.5
12-SLT01530	1.57	1.6	30.5
