

O-Rings

Nitrile Butadiene Rubber (NBR70)

NBR70 offers excellent resistance to oils, fuels, greases, and many petroleum-based fluids, making it a popular choice for seals, gaskets, and industrial applications. It also provides good mechanical strength and abrasion resistance. While highly versatile, it is not recommended for use with strong acids, ketones, chlorinated solvents, or prolonged outdoor UV exposure.

Part Number	ID	Cross Section
13-OR3.0	3mm	2mm
13-OR3.68	3.68mm	1.78mm
13-OR4.0	4mm	2mm
13-OR5.0	5mm	2mm
13-OR6.0	6mm	2mm
13-OR7.0	7mm	2mm
13-OR8.0	8mm	2mm
13-OR9.6	9.6mm	2.4mm
